FACADE AUDIT
UGC DESIGN STUDIO

Facade Audit

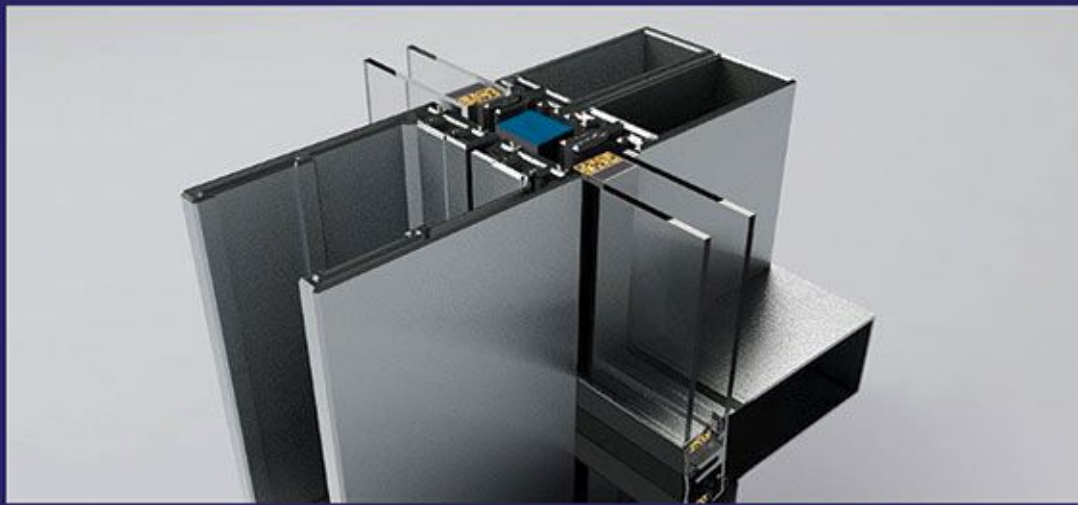

Universal Glazing and cladding specialised service that does a diagnosis of the façade design at a micro level. The purpose of this service is to identify the weak links in the façade design and implementation before a disaster can destroy the building.

Finding key causes of failures rather than assumptions and probabilities and gives remedial measures and advise on rectification methods and procedures for a sustainable design.

UGC Design Studio

Universal Glazing and cladding design studio specialised service that does complex geometry resolution, advanced 3D and Building Information Modelling (BIM) services to the building industry's most technically and geometrically challenging projects. Enabling intelligent creativity – we love to technically support creative, imaginative and collaborative teams through the development of practical, rational and pragmatic solutions.

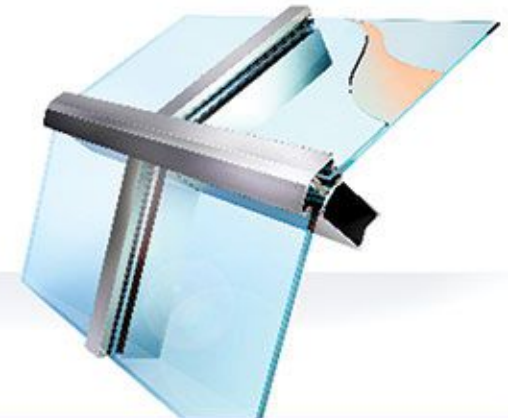

We support for all Hospitals, Hotels, Educational Institutions, Commercial Buildings, Industrial Buildings, Residential Apartments, IT Parks.

Redefining custom
and standard
Curtain Wall.

A leader in
custom and
pre-engineered
Skylights.
